

Serial No.: 10/689,272
Amendment Dated: December 15, 2005
Reply to Office Action of October 20, 2005

AMENDMENTS TO THE DRAWINGS:

Attachment: Replacement Sheet for Fig. 1 Including Changes Requested by the
Examiner.

REMARKS

Applicant herein amends the above-captioned application based on the Examiner's remarks in the Notice of Allowance. To that end, Applicant herein submits a replacement drawing for Fig. 1 that illustrates the internal cavity for the housing that receives the isolation chamber. In addition, the specification has been amended at pages 5, 6 and 8 to include references to this now depicted feature, including the Parts List. In addition, the Parts List has also been amended to include the light transmissive windows 78, as required by the Examiner.

Applicant also wishes to confirm authorization herein to the Examiner's Amendment with regard to Claims 1 and 9 as noted in the Notice of Allowability as well as the cancellation of Claim 7. Since these changes were already made by way of Examiner's Amendment and Applicant has no proposed changes and/or additions, Applicant has not relisted the claims herein.

Applicant believes that the application is now in a condition for issuance. Entry of this Amendment is earnestly solicited.

Should the Examiner wishes to expedite disposition of the above-captioned patent application, she is invited to contact Applicants representative at the telephone number below.

The Director is hereby authorized to charge any additional fees associated with this communication or credit any overpayment to Deposit Account No. 50-0289.

Respectfully submitted,

WALL MARJAMA & BILINSKI LLP
